

BS-3102 Parted Laser Blood Sampler

> Application:

Parted Laser Blood Sampler can be easily deployed in mobile medical treatment sites for finger blood, infants' heel blood or earlobe blood collection. Multiple types (Table type, Wall type and Parting type) are available.

> Features:

- Parted Structure, Airproofed Shield
- Intelligent Operating System
- Visual Angle Adjustable LCD
- Single-hand Operation
- No Memory Effect PLIB

> Specification:

Dimension & Weight		
	Dimension	208*237*86 (mm)
	Weight	1.3 Kg (Net)
Power Supply		
	Charger	Input AC 100~240V / 50~60Hz Output DC 9.5V / 3A
	Battery	3.6Ah / 7.4V
Laser Specification		
	Laser Module	Solid Laser
	Wavelength	2.94 μm
	Work Style	Single Pulse
	Pulse Range	400 μS ± 10%
	Pulse Interval	≤18S
	Pulse Energy	550 MJ(Max)
	Energy Stability	≤10%
	Safety Standard	IEC60825-1
Operation Environment		
	Temperature	5℃~40℃
	Relative Humidity	30%~75%
